## MAIL DELIVERY SERVICE SOUGHT

The possibility of rural mail delivery in the Moon Lake - Tomahawk area has been proposed by the Millbank F.U.A. Local which has already contacted the Post Office Department and has made plans for a meeting of area representatives to consider the matter.

In reply to a request for information from the Millbank Local, the Edmonton District Director for the Canada Post Office noted that the department is considering requests for rural mail delivery and suggests a canvass of area residents with a petition for such service.

The department notes that rural routes emanate usually from larger centres, depending on the shopping habits and towns regularly visited by the people in the area concerned. Along with this information, the department requests township diagrams indicating detail of travel over all-weather roads, usually those used by school buses.

In its original request the Millbank Local suggested rural delivery in Ranges 5, 6, 7 and 8; Townships 49, 50, 51, 52 and 53. The local felt that routes might come from both Entwistle and Drayton Valley, serving the area around Seba Beach and Horn as well as Rocky Rapids, Round Valley and Ramona. These areas were added to the original Moon Lake - Tomahawk suggestion.

In order to determine the feelings of people throughout the area the Millbank Local has called a meeting for 8:30 p.m. on Saturday, July 19th at the Millbank Hall, which it is hoped will be attended by representatives from all communities in the general district outlined above.

Further information may be obtained by phoning 727-2262 or 339-2247.

## Plans Progressing For Hockey School

Plans are well advanced for the summer hockey school to be held in the Drayton Valley Centennial Arena from August 25th to 31st.

Clare Drake, former head coach of the University of Alberta Golden Bears will be the camp director and chief instructor and will be assisted by Brian McDonald, newly appointed coach of the Bears, and several professional and amateur players.

The camp is open to boys from eight to eighteen years who are urged to register now with the Drayton Valley Recreation Department if interested.

## District Crops Hit By Heavy Frost

A heavy frost on the evening of Wednesday, June 11th blackened town and area vegetable gardens and may have harmed field crops extensively. It was felt by district farmers immediately after the frost, that several more days would be required before the extent of the damage could be evaluated.

Most, however, were optimistic that crops would recover. The crops set back by frost will be late maturing and run the risk of being hit by early fall frosts or a wet September.

The frost may have frustrated attempts by farmers to seed an early crop and have it harvested in the usually dry August weather.

Sharp frosting temperatures were recorded in Strathcona County and south. District agriculturists from Barrhead, Evansburg, Sangudo, Stony Plain, and Leduc have also reported frost.

They all said it would be several days before the full extent of the damage would be determined. A time in the hot sun will show which of the yellowed plants is not coming back to life.

Rain could revive many of these plants and is particularly important in the dry Stony Plain, Strathcona and Leduc areas.

## Stettler Man New Rotary Governor

The 400 delegates also elected Dr. W.H. Swift of the Edmonton Rotary Club as governor nominee.

## EASYFORD HOME HEAVILY DAMAGED BY FIRE SUNDAY

Fire Sunday afternoon caused heavy damage to the George Dean home at Easyford. A garage was burned to the ground and the house badly damaged but household possessions were saved although possibly damaged to some extent by smoke and water.

The County of Parkland fire truck stationed at Drayton Valley responded to the alarm at 4:30 p.m. Sunday with six members of the Volunteer Fire Department. Firemen worked until 9:00 p.m.

before the blaze was reported all out. Two water tank trucks were also called from Drayton Valley to help fight the fire.

The fire was thought to have started in or near the garage, which was beyond help when firemen arrived on the scene, and then spread to the house. Firemen concentrated on saving the house and encountered stubborn resistance before extinguishing smoldering fire in the shavings-insulated ceiling.

## Fastball Tournament at Breton

The 9th annual softball tournament sponsored by Breton High School was held on June 7th with participating schools from Warburg, Drayton Valley, Thorsby, Lakedell, Pigeon Lake Regional, and Breton.

The tournament, a single-knock-out affair, began at ten-thirty on Saturday morning.

The play-off games were run in the late afternoon. For the boys, Pigeon Lake played Thorsby to determine first place and the Breton A team played the Breton B team for the consolation. Pigeon Lake captured the

Breton Students' Union Trophy by winning first place and Breton B won the consolation. In the girls games, Warburg battled Lakedell for first place and Pigeon Lake met Drayton Valley in the consolation. Warburg managed to win to take first place while Pigeon Lake took the consolation.

The cross-country race was also run on the day of the tournament just before the final games. Participants were Gerald Pealot from Pigeon Lake and Mike Musson, Harvey Smith and George Zawarka from Breton. Results

of this event were: George Zawarka first place; Mike Musson second place; and Harvey Smith third place.

## EDITORIAL COMMENT

### Why Make Highways More Hazardous?

Albertans should be alarmed and protesting Highways Minister Gordon Taylor's plan to permit testing of triple truck trains on the province's highways.

We fear that the industry's bid to test on the 4-lane highway between Calgary and Edmonton is but the thin edge of the wedge. Success here could very well be followed by a bid to use other highways.

An application to use three trailer trucks on U.S. highways was turned down by the U.S. Congress. If the units were too large for the U.S. freeways and expressways, how can anyone think they can safely travel Alberta's highways.

How in the world will a motorist manage to overtake and pass one of these 105 foot monsters, even on a four-lane highway, if rain spray or snow billows are being whirled out by the truck unit. It's bad enough now, under unfavorable circumstances, in passing even a conventional large trailer.

We hate to think of what might ensue if the big units were successful in gaining use of the two-lane stretches of even a few major highways.

We hope Mr. Taylor will think a little more about the implications of his decision. A lot of motorists contribute to the provincial coffers as well as the trucking industry, and perhaps the motorists should see that their voices come through to Mr. Taylor just as loud and clear as the truckers.

### River Swimming Will Lead To Eventual Tragedy

The recent tragic deaths of four members of a family near Cherhill by drowning in the Pembina River should serve as a timely reminder to young people of this area of the dangers involved in swimming in unsupervised areas.

The same river that claimed the lives of the Cherhill family also serves as a swimming place for young people in this area who forsake a good community pool in its favor.

Even good swimmers can get in trouble. In a supervised pool trained staff members are available to cope with emergencies. A swimmer in trouble in the river is almost helpless. Even if others can reach him, they may do nothing except compound the difficulty unless they are competent in the techniques of life-saving.

"Saves dishwashing, doesn't it?" said another bride.

Axes, saws, power saws and shovels, and old clothes should be taken along for the job.

Tentative plans call for the local association to put on a weiner roast on the Saturday evening at the dam after work and it is also anticipated that a second group of families may well leave town from the arena at 7:00 p.m. on the Saturday, being unable to get away in the morning.

Further arrangements will be discussed by the Pembina Oil-field Fish & Game Association Executive at their executive meeting this Thursday evening at the hotel and anyone wishing further information should call George Hart, Ken James, Bob Cowan, Phil Vatter, Jim Wensley or other members of the executive after that meeting.

# We prove our cars the hard way to make them worry-free

We've taken our Datsun 1600s over some of the roughest roads and through the toughest rallies to make one thing certain: that Datsun 1600s are more dependable than any other cars in their class. Datsun won the Canadian Rally Championship in 1967. Datsuns won two classes in the Shell 4000 Rally/68. And this year, Datsun 1600 won the South African Gold Fields Rally. It also won team class honours in the rugged East Africa Safari Rally, where a field of 87

cars started and only 31 finished. Datsun 1600s came in 3rd, 5th, 7th, 8th, 11th, and 13th. They have muscle. Their advanced design overhead cam engines turn out 96 hp. They can go 0-60 in 13 seconds and up to 100 mph. And they go up to 35 miles per gallon.

Mercedes-Benz, BMW and Datsun 1600 have a similar all-independent suspension system for precise handling and perfect control. There are disc brakes, a collapsible steering column, headrests, safety harnesses and padding inside. All standard equipment.

Test drive Datsun 1600 soon. There are more than 160 Datsun dealers coast-to-coast in Canada and over \$1,000,000 in parts to back it wherever you go.

### Second Section THE WESTERN REVIEW

Drayton Valley, Alberta  
June 18, 1969

Most of the swimming registrations are in now and although our estimates were close the distribution of these are causing some problems. We have received a very heavy registration in the Wabamun, Keephills, Tomahawk area, and fewer in other areas in which we expected more. The learner pool planned for Seba Beach has been relocated in Entwistle. This was due to the availability of a facility to house the pool. The school at Seba Beach is needed for another term in which facility we had hoped to locate the pool. The pool is not as central as we had at first hoped however we feel very fortunate to be able to locate at Entwistle.

All other programs seem to be moving along quite satisfactorily. The playground and day camp leaders will be moving off to Olds in a couple of weeks for their training period.

Our Youth Employment Service (YES) is shaping up quite favorably. The staff are out meeting with Chambers of Commerce and various other groups discussing the program, with favorable response.

Only 8 days of school are left for the little guys, which means that for a couple of weeks they will have time on their hands until the playground programs open on July 9th. No youngster should miss the program on the playgrounds as these will provide

a variety of interesting activities not available anywhere else.

The day camp program is also taking shape. Some new ideas that I notice on the proposed program is the building of your own weather station, pottery from digging to bisqueing in your own camp fire, and pancake breakfasts done up by the staff. Should any of the existing church vacation schools or other organized groups wish to participate in the program you may contact the office and make arrangements. We would be interested in knowing when the community groups are holding events such as vacation schools, special events, etc., so that the programs on the playgrounds and day camps do not conflict with them.

With this more dependable power, you get easy starting, longer engine life and quiet vibration-free operation. Heavier, stronger construction is obvious throughout the machine.

We challenge any machine to lay down a neater row of grain or hay at a faster clip than you'll get with this nimble Massey-Ferguson MF 36. We don't think you can find a better swather for the money—and there are liberal trades—terms too, if you wish.

## YOUR DENTAL HEALTH

Our topic for this week is the use of fluorides in the prevention of tooth decay. Fluorides are present naturally in plants, animals and human tissues. They occur normally in small quantities in most foods of vegetable and fish origin. Even tea has a high fluoride level.

Over 9000 scientific articles have been published explaining the action of fluorides in the body, and the best levels of fluorides to have in the body. The ideal level of fluoride can be maintained in the body by drinking water containing 1 part per million fluoride. These fluorides combine with the forming teeth to make them resistant to decay. In the proper amounts, fluorides produce up to 65% decrease in dental caries.

Fluoride actually combine with tooth enamel to produce a substance which is less soluble in decay acids. Certainly the best way to get the right amount of fluoride is in our water supply. Children receive the most benefit from drinking fluoridated water.

Other ways to gain the benefits of fluoride are: 1. to have the teeth "painted" with a fluoride solution regularly at your dentist's office. 2. use any toothpaste containing fluoride regularly (at least 3 times per day). 3. use fluoride drops or pills as supplements. This method is unsatisfactory because a mother often forgets to give her children the proper daily dosage.

The natural fluorides found in foods do not supply enough fluorides to be of real benefit.

It is a proven scientific fact that fluorides can reduce the rate of tooth decay. It is up to us to use these fluorides for our benefit.

Next week, the last in this series of dental articles will be printed.

## Applications Being Accepted For Dairy Princess Contest

The Alberta Dairy Princess is among the busiest in the province promoting dairy products during June, designated Dairy Month across Canada.

Miss Anne Wearmouth is telling consumers about the great variety of ways in which dairy products can be used either in their natural state or in recipes. She is asking them to make dairy foods, dairy foods as she demonstrates products in stores and speaks to groups on television or radio or appears in newspaper and magazine articles.

While assisting the dairy industry to increase consumption of their products, the Dairy Princess is also preparing to represent Alberta in the Canadian Dairy Princess competition later this summer.

Alberta contestants have been named Canadian Dairy Princess for three consecutive years with Miss Shirley Clark of Edmonton currently holding the title.

Miss Wearmouth will compete for the title at the Canadian National Exhibition in Toronto after a new Alberta Dairy Princess is named at Edmonton Klondike Days in July.

Applications are now being accepted for the Alberta Dairy

Anne Wearmouth

Princess competition. Contestants must be single and between 17 and 25 years old. They may live off the farm while attending educational institutions or working. They will be asked to machine milk during the competition and will be questioned on their knowledge of the industry. Judging emphasis will be placed on poise and personality.

The winner will receive many special prizes and must be available to represent the dairy industry at functions during the year.

Information and application forms are available from the District Home Economist's offices any creamery or from the Alberta

### Executive Meeting

## Evansburg Athlete Does Well in Track Meetings

One of the boys from the Evansburg High School did well for himself this year in school sports competitions. Roland Payne, a grade eleven student at Evansburg High lives north of Wildwood on his parent's farm and attended high school here.

On May 16th, at the Evansburg School Home League Meet, he qualified to go to the Parkland District Meet in the 440, Triple Jump, Long Jump and High Jump.

On May 24th, the Parkland District meet was held at Hinton and students from Drayton Valley, Stony Plain, Edson, Hinton, Jasper and McBride, B.C. took part in the competitions. At this meet, Roland finished 1st in the 440, Triple Jump and Long Jump. He also won the Senior Boys' trophy.

The next meet, he competed at was the North Central Meet held at Sherwood Park just east of Edmonton. Roland finished 2nd in the Triple Jump, 5th in the Long Jump, but did not run the 440. At this meet he qualified for the finals in the Triple Jump.

Final competitions were held in Calgary on June 7th. Roland and his Physical Education instructor, Mr. Jensen, travelled there to compete. However, Roland did not finish among the winners, but he made a very fine showing for our school. His best jump was made at Edmonton where he jumped 39 feet.

Also qualifying for the Zone Meet were Tim Payne, Emie Semenyna, Richard Semenyna. Although these boys failed to qualify for the final they all made a good showing. This was the first year for this school in the Provincial Athletic Association and we should be proud of what the boys did. In the Provincials the North Zone won the trophy for the best rural zone.

# YES . . . Why Not

You now have a Youth Employment Service which can match competent and enthusiastic young people with almost any of your job needs. The official opening of YES will be July 1st, at 10:00 a.m.

It is the objective of YES to register at least one job from every businessman, property owner, home owner, and organization in the country. There are hundreds of jobs, large and small that need to be done (eg. farm work, housework, painting, gardening, baby-sitting), so this objective should be fulfilled easily.

Chambers of Commerce, school teachers, Church groups, and many other individuals already have given YES their support and jobs. We will be contacting you and your businesses if you have not registered your job requests by July 1st.

Elementary School students are shown here taking part in last week's track meet.

## D. V. Highlights

BY MRS. EDITH DEBY

Our sympathy is with Mr. Allan Home whose mother passed away last Saturday.

Called on Mrs. Edith Dunnington at her home in Summerland last week and found her busy as usual. She is well on her way to a complete recovery after her recent operation.

I am greatly flattered to be mistaken for "Green Thumbs" who writes an article on gardening for this paper. As much as I love plants, the knowledge to write a column of this sort is quite beyond me.

Did you see the picture of Sgt. Douglas (Skip) Wilson in the Edmonton Journal recently? In the

picture Skip is being punched on the nose by a ten month old child and the heading reads "Gets his man". Skip is in Odessa, Texas as part of an Edmonton delegation to promote K-Day festivities. The sergeant made many friends in Drayton Valley when he headed the R. C. M. P. detachment here.

Mrs. Leslie Oscar has as her guests her mother, Mrs. Block, of Daysland, and her sister, Mrs. Duncan MacGregor, of Burlington, Ontario.

The George Dean family, of Easyford, had the misfortune to have their home badly damaged by fire last Sunday. The fire started in the garage which was completely destroyed. Neighbors responded quickly to the call for help but much damage was done to the house and the family must live elsewhere until repairs can be made.

Mr. and Mrs. Peter Greschuk spent the weekend at Wabamun where Mrs. Greschuk is making an effort to learn to water ski. She does not recommend lake water as a beverage.

Had a good visit with Mrs. Cull last week in Abbotsford. She celebrated her 78th birthday on June 5th and was remembered by many friends as the rows of pretty birthday cards testified. Mrs. Cull enjoys her life in Abbotsford with her children and grandchildren about her but says she misses her friends in Drayton Valley and her work at the library. Mrs. Cull makes her home with her daughter, Mrs. Lydia Hatton, and with so many young people about, life doesn't hold a dull minute. Grandson, Ronald Klevin, graduated this year from high school and has a job waiting. The Hatton triplets, Dennis, Diane and Doreen, had their 'coming of age' party and Doreen was married early in June. Mrs. Cull sends greetings to all

her Drayton Valley friends.

Mr. William Stairs who lived for some years on a farm west of Violet Grove is also in Abbotsford and enjoys the milder climate. Mr. Stairs is a steam engineer and works at one of B. C.'s many saw mills.

Mrs. Roy Burrows has returned from a ten-day visit to Montreal where she visited an aunt and cousins.

## ENTWISTLE NEWS

The Chamber of Commerce will award a prize to the family who does the most paint-up or clean-up on their home place or the place of business. We hope everyone will make an effort to have their place looking nice. Winners will be announced when the final day comes.

A stag party was held for Allen Hoople on May 31st and all reported having a good time.

We were all glad to see Mrs. Rosemary Hofmann home once again and we hope she will soon be feeling herself again.

On June 9th, the Entwistle and Drayton Valley 14 and 15 year old boys had a ball game in Entwistle. Unfortunately the Entwistle team lost the game but it was a good ball game anyway.

Mr. and Mrs. Jay Sumner of Whitecourt were visiting their daughter and her family and also friends on the weekend.

A large number of friends and relatives were in Entwistle for the Peterson - Hoople wedding on June 7th.

The small boys ball team 10, 11, and 12 years old played ball at Seba Beach on June 10th, with Seba Beach winning 10 - 7.

The First Entwistle Brownie Pack enrolled some Twennies on June 12th, with Mrs. Marion Neil of Drayton Valley doing the enrolling. Those enrolled were: Margaret Banks, Sandra Gylander, Tammy Gylander, Sherry Lang, Janet Melnyk, Norine Nelson, Shirley Romanchuk, Corine Roth, Kelly Stevens, Susan Swatsky, Connie Sutherland, Nellie Terpstra and Debby Willoughby. The parents were invited to see their children enrolled.

Bob Deib and Emie Spreen were promoted to Sr. Pump Men on the Entwistle Fire Department. At their meeting on June 10th 10 members were present and duties for the evening were the washing off of the cement ramps in front of the Esso and Shell service stations.

She married an archaeologist because the older she gets, the more he appreciates her.

**CREDIT**  
Do you use credit?  
Sure you do. All of us do to a greater or lesser extent.  
None of us pays cash for utilities as we use them. Many people use credit to pay for gasoline because it's convenient.  
Certainly credit buying has its advantages. Not many of us could buy a car, or a house or a farm or machinery if it weren't for credit. And how often we're told that credit accelerates economic growth.  
But it can also cause hardships. Investigations into U. S. riots have revealed that part of the unrest can be attributed to unfair commercial practices in negro and slum areas.  
In our own province Debtors' Assistance legislation is in effect. Mr. Barber of the Edmonton Credit Bureau can tell you about couples on the brink of personal bankruptcy and divorce because of debts. One case showed a couple in debt for \$22,000 - and that didn't include a house or serious illness or anything of the sort.  
The thing that gets people into trouble is the colour T.V., the stereo, the new car, the boat, and on it goes.  
Even the interest disclosure laws won't help you if you won't help yourself. (The salesman must now tell you the cost of interest in dollars not in just percentage.)  
People tend to look at the cost per month. \$10 a month sounds not too bad but calculate the total cost over the total length of the loan and you may find you're paying almost twice as much as the original price.

**Don Sanderlin Wins Skeet Title**  
STE. ANNE DES PLAINES, Que. -- Don Sanderlin of Edmonton, son of Mr. and Mrs. Ed Sanderlin of Drayton Valley, won the men's title in the Canadian international-style skeet shooting championship Sunday.  
Mr. Sanderlin hit 187 of 200 skeet to capture the title.  
Mr. Sanderlin will be part of the Canadian team that will travel to Madrid for the world competition in October.

**Mischief Causes Majority Fires**  
One would think that fraud would be the major reason for arson; however, last year only ten per cent of the incendiary fires in the province of Alberta were from that motive. The majority of 66 per cent were due to mischief. These are the findings of the Investigation Section of the Fire Commissioner's Office of the Department of the Provincial Secretary.  
The four-man Investigation Section spends most of its time investigating fires of a suspicious nature. Of 199 suspicious fires in 1968, 158 were determined as arson, or suspected arson. Juveniles, ranging in age from seven to fifteen, comprise a large portion of those responsible for incendiary fires. There were 67 juveniles involved in 1968, 47 of whom were warned but not brought to court.  
A continuous education and fire prevention campaign by the Fire Prevention Division in the Province of Alberta has proven effective in curbing the amount of property lost and the number of people who have perished in fires. There was a \$14,600,000 loss in 1968 and 54 lives lost in fires.

**THE TOWN OF DRAYTON VALLEY**

# **EMERGENCY NOTICE**

Your Water System Has Been Over-taxed and now is unable to provide sufficient water to supply the Extra Ordinary Demands now being placed upon it. The unusually hot dry Weather that we have been experiencing now for nearly a month has led all of us to use water much, much more than usual on Lawns, Gardens, etc. At the present time we do not have sufficient supply sources to maintain this extra ordinary call on our supply.

Your Water Works Department Earnestly Solicits Your Co-operation in bringing about a balance between supply and demand by curtailing the use of water. They are asking that a rationing system be put into effect which will bring about this balance and at the same time provide everyone with an equitable amount of water. This rationing system is as follows:

**Mondays, Wednesdays and Fridays**

**North Side of 50th Avenue**

**WATER between 7:00 p.m. and 9:00 p.m. ONLY**

**Tuesdays, Thursdays and Saturdays**

**South Side of 50th Avenue**

**WATER between 7:00 p.m. and 9:00 p.m. ONLY**

**Sundays - All Householders**

**WATER between 7:00 p.m. and 9:00 p.m. ONLY**

Rationing of Water may be Instituted by a Municipal Corporation when the necessity for same becomes necessary. Our water supply situation has now reached this point and anyone contravening this rationing directive may be prosecuted.

Another water well is being drilled and it is expected it will go into production shortly after the first of July. When this occurs our water supply sources will be much more able to handle a demand which we are now experiencing. Until then it is imperative that each and everyone of us rigidly adhere to the rationing system instituted.

The Mayor and Council are confident that all Householders in Drayton Valley will react favorably to this emergency and co-operate to the fullest.
